SUMMARY

Passionate web developer dedicated to helping businesses succeed online with custom digital solutions.

EDUCATION

- **Bachelor of Science in Information Systems**
University of Nevada, Reno – December 2021
-

EXPERIENCE

Website Support Specialist

June 2021 – August 2021

University of Nevada, Reno Cooperative Extension – Reno, Nevada

- Redesigned high-traffic sections of the Cooperative Extension website to be more user-friendly.
- Collaborated with I.T. and database personnel to improve the usability of internal content management for employees.
- Led meetings with county leaders across Nevada to create online educational programs.
- Assisted researchers and program leaders in creating web pages to share their work with the public.

Web Developer

October 2017 – May 2021

Wyred Insights, Inc. – Reno, Nevada

- Built and maintained high-end websites using HTML, CSS, JavaScript, PHP, and WordPress.
 - Created an e-commerce website using WordPress and custom PHP plugins that has processed over \$60,000 in sales since its launch.
 - Contributed to several custom web API projects using PHP.
 - Mentored several interns in learning WordPress, programming basics, and client communication.
 - Managed client communication through email, phone, and meetings.
-

COURSEWORK

- **Internet Programming:** Developed high quality, mobile-friendly websites using HTML, CSS, JavaScript, and the Bootstrap framework.
 - **Internet Programming II:** Utilized the C# programming language, ASP.NET Core framework, and Model-view-controller design pattern to develop scalable web applications.
 - **Database Design and Implementation:** Designed logical models for business databases and used SQL to create databases in Microsoft SQL server.
-

SKILLS

- Trained in producing clean and efficient HTML, CSS JavaScript, C#, and PHP code across a variety of different frameworks and operating systems.
- Adept at managing website servers, FTP servers, DNS servers, and SSL certificates across multiple different services and websites.
- Proficient in instantiating and maintaining WordPress websites with dozens of custom plugins, PHP scripts, API integrations, and CSS files.
- Passionate about learning new technologies, languages, and approaches to help businesses be more successful.
- Capable of designing and implementing databases in Microsoft SQL Server.
